Assam Academy of Mathematics

Established in 1986, AAM is a society of teachers, students and people interested in Mathematics in Assam, striving to popularize Mathematics in different levels. Apart from holding of Mathematics Olympiad and other competitions, this non-profit organization gives the students and teachers a platform through its activities such as publication of magazines and study materials and organizing training programmes and workshops.

Mathematics Teachers' Association (India)

MTA(I) was founded in 2018 with the goal to work towards improving the teaching and learning of Mathematics at all levels, and to bring together school teachers, university faculty, researchers in Mathematics and educators, and others with an interest in mathematics education.
